

CIRCULAR TO ALL GTA MEMBERS

Further to several queries raised by GTA members, about the use of Spas, we have sought clarifications from the Authorities, and kindly note that according to SL 465.02 spas are included in the definition of swimming pools and therefore they are prohibited under L.N. 87 of 2021, (attached). This same legal notice has not as yet been revoked.

Also in view of queries received from the Hotels and Guest Houses and other accommodation sectors, kindly also note that this same law is also specifically prohibiting the use of all commercial swimming pools both inside and outside, until further notice.

For your guidance.

Thanks and regards,
