

## **CIRCULAR TO ALL GTA MEMBERS**

August 6<sup>th</sup> 2021

Dear GTA Member,

Please be informed that yesterday the Deputy Prime Minister and Health Minister Dr Chris Fearne announced an update on the Health Measure.

These included that fully vaccinated individuals will spend less time in quarantine if they come into contact with a coronavirus patient. Furthermore as from 16 August, all those who are fully vaccinated will spend seven days in quarantine instead of 14, while the quarantine period will end, once a negative test is presented. However, these new rules will not be applicable to household contacts, the Covid positive patient themselves or travellers.

Additionally the number of those attending controlled outdoor seated events will also increase to 300 from 200 from 16 August and to 500pax from end of August. This can always be done if guests comply with other restrictions, including the use of the mask and social distance. Moreover from 30 August, the capacity for outdoor seated events would further increase to 500. All those who attend have to be vaccinated. For the time being, standing events remain off-limits.

Updated Legal Notices will be send to you as soon as made available.

Thanks and best regards
