### **GTA Condemns Vandalism**

The Gozo Tourism Association strongly condemns the acts of vandalism carried out by irresponsible individual/s on the information boards forming part of an Gharb walking trail. These information panels were very useful to all trackers as these included descriptions on the Wied il-Mielah valley and the Wied il-Mielah Window.

The Gozo Tourism Association acknowledges the efforts being done by the Ministry for Gozo and the Gharb Local Council, in order to attract further tourists in the locality. Most of the infrastructural and embellishment investment through EU funding, carried out by this council was mainly aimed to enhance the touristic product in the Gharb Locality. Therefore the Gozo Tourism Association deplores such acts of vandalism that in turn will be giving a bad name to our Island.

The GTA would like to encourage the Gozitans to take more care of their environment while it hopes that the necessary actions are taken to remedy the damages by the competent authorities.

Joe Muscat
