

The Gozo Tourism Association on behalf of the Gozitan trade and especially on behalf of our members of the Diving Centres operating from Gozo, notes with interest the conclusion of the legal proceedings regarding the diving incident which took place in Dwejra, Gozo in June, 2014.

Whilst expressing its sympathy to the families of the two divers who died tragically in this incident, the Gozo Tourism Association is relieved that this episode is now a closed chapter. The Association would like to thank all those stakeholders who during the past months gave their input in this matter.

The GTA would like to thank especially the Malta Tourism Authority who has taken special and very careful interest in this issue.
